

Since, 1918, the professionals at Mauldin & Jenkins have worked with a diverse mix of nonprofit organizations by providing auditing, compliance and tax services. Mauldin & Jenkins' approach to client relationships is simple; we act as a key resource to give our clients the power to succeed and to accomplish their mission statements. We focus on your needs so you can concentrate on making a difference.

Nonprofit Services

Making a difference is not only an expression for nonprofit agencies, but also one that Mauldin & Jenkins embraces. As nonprofit auditing, compliance, and tax planning experts, we understand there is more to business than just the bottom line – it's about helping people and improving communities. We are committed to supporting the causes of nonprofits by employing a group of professionals who specialize in the not-for-profit industry. This dedicated group within the firm receives both not-for-profit continuing professional education (CPE), as well as governmental CPE, to stay up to date with changing standards.

Mauldin & Jenkins is responsive to its clients by providing continuous service at the highest possible level throughout the year. We also provide training to our clients and the public regarding not-for-profit issues.

Close partner involvement on engagements is designed to provide our clients with the highest level of professional service. Our efficient, paperless audit processes save our clients time and effort. In addition to our technical expertise, our professionals focus on relationships and service, which is the reason why we tend to retain our clients for many years.

Mauldin & Jenkins is committed to keeping current on the latest accounting standards and assisting our nonprofit clients in meeting their unique financial reporting needs.

Many organizations generate enough revenue to require an annual 990 tax return. We spend time with you on tax planning issues that are unique to nonprofit agencies.

Mauldin & Jenkins has extensive experience auditing under Governmental Auditing Standards, Department of Housing and Urban Development (HUD) audit guidelines and Single Audit Act. We can assist with governance and policy issues. Our healthcare expertise and understanding of Federal and State reimbursement can be a substantial asset to nonprofit organizations operating in the healthcare arena.

Our nonprofit professionals have expertise in working with agencies such as civic groups, hospitals, long-term healthcare facilities, medical foundations, legal services programs, university foundations, affordable housing communities and other voluntary, health and welfare organizations.

The range of services we provide for nonprofits includes:

- Audits, reviews, compilations
- Federal A-133 audits
- Department of Housing and Urban Development audits
- Employee benefit plan administration
- Form 990 and 990-T tax planning / return preparation
- Retirement plan audits
- Educating board members on their fiscal responsibilities
