

STATE & LOCAL TAX SERVICES

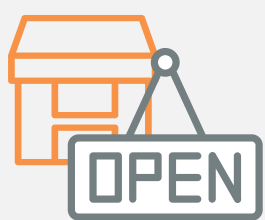

Nonprofit Organizations

With more than 1.5 million nonprofit organizations registered in the U.S., the nonprofit sector is a major contributor to state economies. However, state tax law does not always offer the same exemption status awarded by the Internal Revenue Service (IRS). Many state taxes still apply to the activities and functions to carry on the day-to-day operations of a nonprofit. Do you know your state and local sales tax laws?

Many revenue generating and fundraising activities have sales tax implications. When was the last time that your organization considered sales and use tax requirements? Now is the time if you are involved with any of the following:

Fundraising Events

(Dinners, Auctions, Golf Tournaments, Road Races, Bake Sales, Happy Hours, etc.)

Retail Establishments

(Thrift Stores, Food/Coffee Shops, Recycling, etc.)

Charge memberships/admissions fees to sports complexes or tournaments

Sell Tangible Goods or Services

Do not let a lack of sales tax compliance hold your nonprofit back from fulfilling its mission. The State and Local Tax (SALT) experts at Mauldin and Jenkins, LLC, can get you on the right path so that your mission can become reality.
